Experience

Accenture Services Pvt. Ltd, BLR/PNQ/BOM, *Software Engineering Analyst*   *July2012 – July 2014*

- Front End Platform Engineer for various multinational clients including Argos, Apple, AT&T and ETS for mobile and web platforms.
- Developed survey analytics portal for Ashoka – The global NGO using Node.js, Angular.js, Express.js, Postgre SQL and Github as versioning tool. Implemented on Platform as a Service using Heroku as test environment and migrating to Engineyard. Rewrote the Node.js code for performance and HTTP pipelining issue.
- Developed extensively using jQuery, HTML5, CSS3, Bootstrap and Backbone.js.
- Strong on responsive design layouts and formats. Developed for many cross platform and mobile compatible web applications including hybrid HTML5 Applications.
- Projects were led in agile methodology, got an opportunity to lead the Front end team in a project, enhancing my professional and communication skills.
- Spoke in conferences on "The future of Javascript and modern web development" on behalf of Accenture.
- Handled presales engagements for Front end architecture and Node.js based products and clients. Had a good success and convert rate.
- Development led much emphasis on performance (across web and mobile including touch optimisations), cross browser compatibility, accessibility (including WAI-ARIA, WCAG2.0 standards), Node.js libuv bindings, graceful degradation and progressive enhancement.
- Empanelled interviewer for Accenture India in Rich Internet Applications category.
